

## The Trinity – Week 3

Who is God and how can we come to know him?

---

All analogies of the Trinity are not sufficient to properly describe our God.

### Core Idea

The Trinity – God \_\_\_\_\_ exists as one being in \_\_\_\_\_ distinct persons.

Trinitarian theology is complex because our \_\_\_\_\_ minds are trying to understand the nature of an infinite God.

### Breaking It Down

God the Father \_\_\_\_\_

God the Son \_\_\_\_\_

God the Spirit \_\_\_\_\_

Each person of the Trinity is not just a different \_\_\_\_\_ or \_\_\_\_\_ of God. Believing God only appears in different modes is a heresy called modalism.

### Why does this even matter?

Each person of the Trinity has a different \_\_\_\_\_. All of these different roles are equally important.

It is only because God is Trinity that we can be \_\_\_\_\_ in God always being constant in his love for us.

The Trinity is important because it proves God's constant \_\_\_\_\_.  
(Explain why the above statement is true.)

---

The Trinity also proves that God's love is not \_\_\_\_\_.

The Trinity proves that God has always existed as \_\_\_\_\_ and son.

**Summary** – God is Trinity, three distinct persons coeternally existing in the perfect union of One God.
