## Prayer Requests and Praises

- Please pray for the abortion-minded patients that have come to the clinic. Pray that the truth they receive from us will influence them and their decisions.
- Pray for patients who have chosen to have an abortion. May they experience the Lord's healing and forgiveness.
- Praise God for the patients who come in abortion-minded, change their minds and decide to carry. Please pray for the Lord to guide and strengthen them!
- Pray that our undecided patients would return for their rescan ultrasounds.
- Pray for the women that are getting their abortion pills online and have no physician follow-up when they have concerns. Pray for us, that we would have wisdom as we take their phone calls. Pray that these women will be open to receive care after their abortion.
- Pray for a patient who has a long history of trauma in her life and has had multiple abortions. May she find healing in Jesus!
- Praise God for a patient who returned to our clinic (because of the care she previously received), rather than going to the abortion clinic! Pray that she will receive support from her family.
- Please pray for our patients that have a negative pregnancy test. Pray they would practice abstinence until marriage and desire God's approval more than anyone else's approval.
- Please pray for a couple who changed their minds after leaving our clinic and went through a painful miscarriage. Please pray for their hearts as they grieve this loss.
- Please pray for more male ministry volunteers.
- Pray for hearts to accept Jesus during our group classes.
- Praise the Lord for our first Spanish group class parenting program teacher who starts on May 25!
- Pray for housing and opportunities to continue their education for our mothers in need.
- Praise God for so many material needs that have been met through donations!
