Sanctity of Human Life

Sanctity of Human Life. It's a phrase we've come to know as a concept we fight for, but also as a time of year that we focus on it. It's a value we apply to every conversation at the clinic, but in January, we carry those conversations out to churches, schools, and wherever else we're invited.

January is an important time for the pro-life conversation. While life is no more precious that month than it is every other month of the year, it is a time when the country and churches give greater attention to this life and death issue because of the historical tie to the Roe v. Wade decision. But even since its reversal in 2022, January is often a time when congregations highlight the importance of standing for life. Many Assist partners include us in their services and programming, and we are so thankful they do!

In January we had the great privilege of participating in church ministry fairs, speaking during services, sharing what we do at church information tables, answering questions as they launched Baby Bottle campaigns, and presenting educational seminars at Christian schools. Our mission is to "promote life through Christ to those vulnerable to abortion." That mission is most obviously pursued at the clinic with expectant clients, but promoting the sanctity, or protecting the ultimate importance of life, is also achieved as we help the Body of Christ understand, speak about, and defend it. We love to do that by participating in church gatherings!

Thank you to the many churches who invited us to be a part of your gatherings! **If your church, adult group, youth group, or staff would like one of our staff members to come present on this difficult topic, please get in touch with us.** If the church, the Body of Christ, cannot speak into this emotional and sometimes mis-informed topic, who will? It would be our joy to come alongside your group and help equip you to do just that. Every day matters.

Kelly White
Church Partnership and Volunteer Coordinator
